### Description

#### Luminox Pacific Diver 44mm – Dive Watch

The **Luminox Pacific Diver 44mm** combines classic stainless steel construction with a lightweight **CARBONOX™ unidirectional rotating bezel**, creating a robust and modern dive watch designed for both underwater performance and everyday wear.

Built with a **44 mm stainless steel case** and a durable metal bracelet, this Swiss Made timepiece offers **200 meters / 20 BAR water resistance**, making it suitable for recreational diving and demanding aquatic environments.

The black dial features **luminous hands and hour markers (Neo-display & Neo-hands)** for reliable visibility in low-light conditions. A scratch-resistant **sapphire crystal with anti-reflective coating** protects the dial, while the stainless steel case back enhances durability.

### Key Features

- **Case diameter:** 44 mm
- **Water resistance:** 200 m / 20 BAR
- **Bezel:** Unidirectional rotating CARBONOX™ bezel
- **Movement:** Swiss quartz
- **Glass:** Sapphire crystal with anti-reflective coating
- **Dial:** Black, analog display
- **Luminous display:** Neo-display & Neo-hands

## FAQ

**Is this watch suitable for diving?** With 20 BAR water resistance and a unidirectional rotating bezel, it is suitable for recreational diving.

**What is CARBONOX™?** CARBONOX™ is a lightweight, durable carbon-based material used by Luminor for enhanced strength and reduced weight.

**Does it glow in the dark?** The watch features luminous coating (Neo-display & Neo-hands) for visibility in low-light conditions.

## Glossary

- **CARBONOX™:** Lightweight, carbon-based composite material known for durability and reduced weight.
- **Unidirectional bezel:** Rotates in one direction only, enhancing safety when tracking dive time.
- **20 BAR:** Equivalent to 200 meters water resistance.
- **Swiss quartz movement:** Precision battery-powered movement manufactured in Switzerland.
