Description

Inspection mirror for security services, customs, police, and rescue services.

The mirror kit is designed for visual inspection of inaccessible places, including in poor lighting conditions;

- in engineering systems for various objects status examination;
- in customs clearance when solving problems and controlling passenger and freight transport;
- in the aftermath of emergency situations (examination of debris, inaccessible areas);
- for inspection of public utilities (wells, lifting equipment, sewers, etc.);
- during the inspection of vehicles;
- for special operations of emergency and security services.

Mirror consists of 5m, 4-section telescopic pole and convex acrylic mirror diam.300mm.

Mirror equipped with LED illumination of inspection area. 6 high luminosity LEDs are embedded into aluminum shock proof head.
