Description

Inspection mirrors kit for security services, customs, police, and rescue services.

The mirror kit is designed for visual inspection of inaccessible places, including in poor lighting conditions;

- in engineering systems for various objects status examination;
- in customs clearance when solving problems and controlling passenger and freight transport;
- in the aftermath of emergency situations (examination of debris, inaccessible areas);
- for inspection of public utilities (wells, lifting equipment, sewers, etc.);
- during the inspection and maintenance of vehicles;
- for special operations of emergency and security services.

Inspection kit consists of four section ergonomically designed robust telescopic pole. Pole equipped with LED illumination of inspection area with two brightness modes. 6 high luminosity LEDs are embedded into aluminum, shockproof head.
