## Description

Inspection video system VK 2.2 is designed for security services, customs, police, and rescue services.

The video system is used for visual inspection of inaccessible places, including in poor lighting conditions.

VK 2.2 is equipped with video camera that is capable to work in good lighting conditions, as well as in complete darkness. In poor lighting conditions, the camera automatically switches to IR mode. IR LEDs are used to increase effectiveness of inspection in dark areas. 7 inch monitor has DVR embedded.

The telescopic pole of VK 2.2 extends to over 2m with elbow support attached.

The VK 2.2 design can be modified by request of a customer in order to function in specific working conditions.

### Delivery set:

1. Telescopic pole
2. Detachable elbow support
3. Detachable videocamera
