Description

Inspection video system **VKR 2.2** is designed for security services, customs, police, and rescue services.

The video system is used for visual inspection of inaccessible places, including in poor lighting conditions.

VKR 2.2 is equipped with video camera that is capable to work in good lighting conditions, as well as in complete darkness. In poor lighting conditions, the camera automatically switches to IR mode. IR LEDs are used to increase effectiveness of inspection in dark areas.

The maximum length of **VKR 2.2** extends to 2.2m with elbow support attached. A radio transmitter is embedded, which makes possible to transmit image from the camera to remote monitor.

Set includes:

1. Telescopic pole
2. Detachable elbow support
3. Detachable videocamera
4. LCD Monitor
5. Rechargeable battery
6. Protective bag
