Description

These Masterplast Invisible Aqua Plasters are the ideal dressing for use in or around water. They are ultra waterproof which means that they protect in the shower, whilst washing and even whilst swimming. The non-stick pad prevents adhesion to the wound and so helps promote faster healing.

- 12 x 7.6cm x 1.9cm.
- 12 x 3.8cm x 3.8cm.
- Waterproof, breathable, durable.

Directions for use: Apply before a scab has formed. Wash hands before and after dressing a wound. Gently clean the wound with antiseptic wipe or water. Pat dry carefully with cotton towel or clean lint free cloth. Remove blue backing papers and apply dressing to wound, ensuring adhesive part of dressing does not come into contact with the wound and press down firmly. Change only as necessary.
