Blade length:	21.0 cm
Blade width:	4.4 cm
Blade thickness:	1.8 mm
Total length:	36.5 cm
Weight:	Approx. 158 g
Blade material:	3-layer laminate with Aogami Super carbon steel core
Handle material:	Hinoki wood, twisted octagonal shape
Hardness:	63-65 HRC
Sharpening:	Double-sided symmetrical grind

Care and Maintenance

This knife is made from **high-carbon Aogami Super steel**, known for extreme sharpness and edge retention. However, carbon steel is not stainless - proper care is essential:

- Always **dry the blade immediately** after washing - never let it air dry.
- Store in a dry place - avoid leaving it wet on magnetic strips or in drawers.
- Apply **camellia oil** or a neutral edible oil if the knife won't be used for a while.
- Avoid prolonged contact with acidic foods (e.g., onions, citrus) - these can accelerate rusting and leave patina stains.

ORDER CONFIRMATION

- Do **not** put this knife in a dishwasher – heat and chemicals can damage both blade and handle.
- Use soft cleaning products like cream cleansers and non-abrasive sponges to remove discoloration.

About Aogami Super Steel

Aogami Super (“Blue Super Steel”) is a high-performance carbon steel with excellent wear resistance and cutting power. It is the hardest steel in the Aogami family, thanks to the addition of vanadium.

Steel Composition:

- Carbon: 1.40 – 1.50%
- Chromium: 0.3 – 0.5%
- Tungsten: 2 – 2.5%
- Vanadium: 0.3 – 0.5%
- Manganese: 0.2 – 0.3%
- Silicon: 0.1 – 0.2%
- Phosphorus: 0.025%
- Sulfur: 0.004%

This steel requires advanced skills when used at higher hardness levels and is less tolerant to lateral stress, but in return offers superior edge sharpness and retention.

Warranty

The knife comes with a **24-month warranty** from the date of purchase, covering hidden material or manufacturing defects under the following conditions:

- The knife is used according to its intended purpose.
- Proper maintenance and storage are followed.

Note: Damage from misuse or improper care is not covered.
