Description

The massive Gavilan [Micarta](#) is a great choice as a sturdy and indestructible outdoor knife. As a larger version of the proven Rhino Micarta, the Gavilan Micarta with its wide, ice-quenched blade and the generously proportioned black canvas Micarta handle provides plenty of reserve even for tough applications. The high-quality leather sheath is black/ brown and the fitting paracord lanyard rounds out the package perfectly. The tapered tang ensures perfect balance. Blade steel [4116](#), ice-quenched.

Total Length:	25,3
Blade Length:	12,5
Blade Thickness:	4,4
Weight:	320,0 g
Blade Material:	4116

ORDER CONFIRMATION

For 60 years, Muela from Spain has been one of the leading European producers of classical hunting knives. The family business, founded by Eladio Muela in 1952, is today run under the cooperation of all its 5 children. Since its beginnings in the first small workshop, Muela has developed into a high-tech manufacturer with an annual production of some 350,000 knives. Despite modern computer-assisted production, however, manual work is still being promoted today. Above all, the elaborate processing of Stag, a specialty of Muela, is not possible by machine. This requires the many years of experience of the experts, who prepare and assemble the knife handles and the handle by hand. All production steps are carried out at Muela, even the production of high-quality leather is done in-house.
