Red Strobe	-

Operation

Press the top power button to cycle through the lighting modes:

OFF > Spot Light > Flood Light > Red Light > Red Strobe

When the unit is off, press and hold the power button to activate the **Direct-to-Red** function.

Brightness / Dimming

All light modes support continuous dimming and brightening with memory. While the light is on, press and hold the power button to adjust brightness. The lamp will briefly flash when minimum or maximum level is reached. Release the button to save the selected brightness. Double-tap to recall the last saved mode.

Battery

The EINSTEIN 250 is powered by **3 × alkaline AAA batteries**, which are included in the package.

To replace the batteries, open the battery compartment by lifting the clasp on the top side of the headlamp. Reattach the cover by pressing it closed until it snaps into place.
