### Description

#### Origin Outdoors Firesteel "Survival 5 in 1"

**Origin Outdoors Firesteel Survival 5 in 1** is a compact and versatile fire-starting system designed for bushcraft, trekking, and emergency survival. It combines five essential tools in one robust unit: ignition steel, paraffin-coated wick, waterproof storage capsule, compass, and a scraper multi-tool.

#### Five Essential Tools in One Compact System

This firesteel integrates everything you need to start and manage a fire in challenging conditions. The magnesium ignition steel delivers up to **20,000 strikes**, while the long, paraffin wax-coated wick ignites reliably even in strong wind and rain.

#### Safe and Controlled Fire Starting

The extended wick allows you to keep a safe distance from the fireplace, reducing the risk of burns. Flame intensity can be regulated directly via the housing, giving you better control during use.

#### Built for Harsh Outdoor Conditions

The aluminum housing contains a **waterproof storage capsule** for tinder or small essentials, and an integrated compass for basic orientation. The scraper multi-tool doubles as a bottle opener and map ruler, making this a true all-in-one survival accessory.

#### Key Features

## ORDER CONFIRMATION

- 5-in-1 design: firesteel, wick, compass, storage capsule, scraper tool
- Paraffin wax-coated wick ignites in wind and rain
- Up to 20,000 ignitions
- Waterproof and windproof construction
- Flame regulation via housing
- Integrated carabiner and magnet for scraper attachment

## Specifications

<b>Ignitions</b>	Approx. 20,000 strikes
<b>Weight</b>	265 g
<b>Dimensions</b>	13.5 x 4.5 x 2.5 cm
<b>Housing Material</b>	Aluminum
<b>Fire Steel</b>	Magnesium alloy, 12.5 cm
<b>Wick</b>	Ø 7 mm, length 57 cm, burn time approx. 3 hours
<b>Extras</b>	Compass, waterproof storage capsule, scraper multi-tool, carabiner, magnet

## Safety Information

- Not suitable for children under 12 years - fire hazard
- Children over 12 years only under adult supervision
- Fire striker has sharp edges - handle with care
- Always operate away from the body
- Avoid contact of sparks with skin or clothing
- Do not place the rope around the neck or body - risk of strangulation

## FAQ

**Does the firesteel work in wet weather?** The coated wick are designed to work reliably in rain and wind.

**What can be stored in the capsule?** Under, matches, medication, or other small survival items.

**Is the compass suitable for navigation?** Support in the field but is not a replacement for professional navigation equipment.

**How long does the wick burn?** Burn time of up to 3 hours, depending on flame setting and conditions.

## Glossary

- **Firesteel:** A magnesium alloy rod that produces sparks when scraped
- **Paraffin Wick:** Fuel-soaked cord that ignites easily and burns steadily
