### Description

Survival blanket with olive coating on one side and silver coating on the other side. It is very compact, extremely light and waterproof. To keep warm, turn the silver side towards the person and wrap it completely in the blanket (leave the face free!). It should not be wrapped too tightly. The blanket warms only by reflecting the body's heat radiation and should close tightly. The olive side is for camouflage.

- against subcooling
- for camouflage
- very compact
- very lightweight
- waterproof
