Best choice for wet conditions
and low maintenance

Model	M07 Ranger Puukko (Coated)
Overall length	243 mm
Blade length	119 mm
Blade thickness	4.25 mm
Weight	180 g
Blade steel	80CrV2 carbon steel
Coating	PTFE (Teflon)
Hardness	HRC 59
Grind	Saber grind
Handle	TPE, approx. 12.5 cm
Sheath	Composite, EasyLock, ambidextrous
Designer	Juha-Pekka Peltonen
Country of origin	Finland

Why Choose the Coated Version?

- Improved corrosion resistance compared to uncoated carbon steel
- Lower maintenance in wet environments
- Reduced friction for smoother cutting
- More discreet, low-reflection finish

Safety Information

This knife is a sharp cutting tool intended for responsible use. Improper handling may result in injury.

ORDER CONFIRMATION

- Always use the sheath during storage and transport
- Do not use the knife as a lever or pry tool
- Keep out of reach of children
- Maintain a secure grip during use

Risk Awareness

- **Cut risk:** Sharp blade may cause injury if handled carelessly
- **Grip risk:** Handle may become slippery in extreme conditions
- **Breakage risk:** Improper use may damage the blade
- **Carry risk:** Carrying without sheath increases accident risk

Maintenance Note

Although the PTFE coating improves corrosion resistance, the blade is still made of carbon steel. Clean and dry after use and lightly oil the edge when needed.

Glossary

- **Puukko:** traditional Finnish utility knife designed for practical use
- **80CrV2:** durable carbon steel known for toughness and easy sharpening
- **PTFE coating:** protective low-friction coating improving corrosion resistance
- **EasyLock:** sheath system ensuring secure retention and quick access
