Description

Plastica Panaro MAX1090H410GUN-R - Certified Waterproof Case for 14 Rifles

The **Plastica Panaro MAX1090H410GUN-R** is a **certified waterproof rifle transport case** engineered for professional, military and law-enforcement applications where reliability is non-negotiable. Compliant with **IP67**, **STANAG 4280**, **DEF STAN 81-41** and **MIL-STD-810**, it shields weapons and optics from water, dust, impact and pressure changes. A **removable lid (R)** with **12 latches** (or optional 12 butterfly steel latches) delivers rapid access, while double wheels and multiple handles simplify one- or two-person transport.

Key Features

- **Capacity:** fits **14 rifles** and **56 loaders** (AR15, LWMG, LWMMG families) with optics/accessories mounted
- **Removable lid (R):** side handles on lid for safe removal/handling after unlatching
- **Watertight seal** with polymer O-ring and **automatic pressure release valve**
- **Easy-open double-throw latches** (option: butterfly steel latches)
- **Load-tested soft-grip handle;** bottom-side handles for two-person carry
- **Double wheels** and large fold-down handle for rolling transport
- **Full-length hinges** with 30% fiberglass-filled nylon pins; **stackable**

design

- **Security:** holes for double padlocking; lockable **aluminium cross bar** over foam inlay
- **Made in Italy**

Standards & Certifications

- **IP67** - dust-tight and protected against immersion (1 m / 30 min)
- **STANAG 4280 / DEF STAN 81-41** - NATO/UK military transport standards
- **MIL-STD-810** - environmental durability compliance
- **ATA300 Cat. 1** - suitable for repeated air transport
- **UN4H2** - eligible for dangerous goods (e.g., Li-ion) transport (line compliance family)

Technical Specifications

Model	MAX1090H410GUN-R
External dimensions	1178 × 780 × 447 mm (46.38 × 30.70 × 17.60 in)
Internal dimensions	1090 × 680 × 410 mm (42.91 × 26.77 × 16.14 in)
Cover depth / Bottom	200 + 210 mm (7.67 + 8.26 in)
Capacity (volume)	300 L
Weight	25.36 kg
Materials	Body: Polypropylene • Latches: Nylon • O-ring: Polymer • Wheel pins: Stainless steel • Foam: Polyurethane • Cross bar: Aluminium
Construction	Injection-moulded copolymer with reinforced hinges and stackable geometry
Mobility	Double wheels • Large fold-down trolley handle • Bottom-side carry handles
Security	Padlockable points • Lockable aluminium cross bar for foam inlay
Protection	IP67 watertight • Automatic pressure equalization valve
Country of Origin	Italy

Applications

Optimised for **armouries, units on deployment, range logistics, and secure**

Glossary

- **Double-throw latches:** Lever action for firm closure with minimal effort.
- **Pressure valve:** Balances internal/external pressure to prevent vacuum lock after altitude/temperature changes.
- **Stackable design:** Interlocking shell geometry for secure stacking during storage and transport.
