Description

Rapide Shoecream for Smooth Leather protects and nourishes your favourite shoes.

The cream makes the leather shine and moreover water-repellent.

Use of Rapide Shoe Cream for Smooth Leather

- Remove shoe laces (if any).
- Remove dirt and dust from the leather (for ex. with a damp cloth). Do not apply the cream on the damp leather though - first allow to dry completely at room temperature.
- Using a brush or a soft cloth, apply the leather cream on the desired spot.
- Before polishing, let the cream soak in for 2 hours.
- With a polishing brush you will achieve a beautiful shine. But polishing will also work well with a soft cloth or an old pair of lady's tights.
