Description

Razolution 2Edge safety razor with sideways closed head, stainless steel handle with precious walnut-inlay

Absolute novelty! Safety razor with sideways closed head!

One knows the problem that especially ladies reject the use of a safety razor due to the side protruding blades in the head. Despite the fact that this feature is no danger, it is still critically considered.

With our new razor head, the side ends of the blade are now concealed in a modern and elegant way. A sure new development. The head is manufactured in a zinc die casting process and elaborately chrome-plated. It shaves gently, clean and safe. Suitable for facial shaving (of course also for body shaving, leg shaving etc.). The traditional mechanism with closed comb allows a safe and quick change of the razor blade. Perfect contours on beard are no longer a problem. This well-hand model with a brushed matt, 9 cm long handle with fine walnut-inlay is a small miracle of precision. Suitable for all common razor blades. Delivery in gift box.

The experienced user knows the shaving experience as a wellness - gentle, clean and safe shave through ideal position of the blade in the closed comb of the shaver, very good foam and cut hair removal. Weight approx. 70 g.
