Description

Reliance Rebreath Training Resuscitation Shields – Roll of 36 Sheets

The **Reliance Rebreath Training Resuscitation Shields** are disposable barrier sheets designed for hygienic use during **CPR training on manikins**. Supplied in a convenient roll of 36 sheets, they provide an effective and practical solution for maintaining cleanliness between users.

Each sheet features a **transparent film with printed face positioning guide** and integrated filter paper, allowing students to practice correct mouth-to-mouth ventilation technique while minimizing direct contact with the manikin.

This product is ideal for training environments where multiple users share the same equipment, helping reduce contamination and improve overall hygiene standards.

Key Features

- **Disposable hygienic barrier** for CPR training
- **Roll of 36 sheets** for efficient use
- **Integrated filter paper** for ventilation practice
- **Printed face guide** for correct positioning
- **Compatible with all CPR manikins**

ORDER CONFIRMATION

- Improves hygiene between training sessions
- Easy dispensing roll format

Design and Functionality

Each training shield consists of a **low-density polyethylene (LDPE) film** combined with a **non-woven polyester filter layer**. The transparent design ensures correct placement, while the printed guide helps students learn proper technique.

The roll format allows quick dispensing during group training sessions, making it ideal for instructors managing multiple participants.

Applications

- CPR training courses
- First aid instruction
- Medical and paramedic training
- Workplace safety training
- Educational institutions

Specifications

Quantity	36 sheets (roll)
Film Size	340 × 210 mm
Film Material	LDPE (65%)
Filter Paper	150 gsm non-woven polyester (35%)
Film Thickness	0.06 mm
Colour	Transparent with blue print
Weight	130 g
Product Reference	REF: 2851
Sterility	Non-sterile
Classification	Not a medical device
