Description

Sealskinz Starston Waterproof Cold Weather Mid Length Socks

The **Sealskinz Starston Waterproof Cold Weather Mid Length Socks** are designed for demanding cold-weather environments where warmth, waterproof protection and durability are essential. Built with a **three-layer Aquasealz™ waterproof construction**, the Starston socks keep feet dry while remaining breathable during extended outdoor activity.

The interior features **premium merino wool with terry-loop knitting**, delivering excellent insulation and comfort in cold conditions. Natural antimicrobial properties help prevent odour, while the engineered exterior provides durability and flexibility for high-performance outdoor use. Designed for mountaineering, hiking and cold-weather expeditions, the Starston sock offers reliable thermal protection and moisture management in challenging environments.

Key Features

- **100% waterproof Aquasealz™ membrane** protecting feet from rain, snow and wet terrain

ORDER CONFIRMATION

- **Merino wool interior** providing warmth, comfort and natural odour resistance
- **Terry-loop knitting** improving insulation and cushioning
- **Durable nylon exterior** with four-way stretch for flexibility
- **Elastic ankle support** ensuring a secure and comfortable fit
- **Seamless construction** reducing friction during long use
- **Mid-length design** suitable for hiking and cold-weather footwear

Three-Layer Construction

- **Outer Layer:** Durable nylon blend with four-way stretch for flexibility and long-lasting performance.
- **Middle Layer:** Aquasealz™ waterproof membrane preventing water penetration while allowing moisture vapour to escape.
- **Inner Layer:** Merino wool blend with terry-loop knitting for insulation, comfort and moisture management.

Design and Performance

The Starston sock is engineered to maintain warmth in cold environments while preventing moisture build-up. The merino wool interior absorbs moisture away from the skin, improving breathability and thermal comfort. At the same time, the Aquasealz™ membrane prevents external water from entering the sock, ensuring dry feet even in wet or snowy conditions. The combination of natural and synthetic fibres creates a durable and high-performance outdoor sock suitable for demanding conditions.

Its mid-length design and supportive elastic ankle structure make the Starston ideal for mountaineering, trekking, climbing and cold-weather hiking.

Materials

Outer Layer	90% Nylon, 10% Elastane
Middle Layer	Aquasealz® waterproof membrane
Inner Layer	35% Merino Wool, 35% Acrylic, 23% Polyester, 3.5% Nylon, 3.5% Elastane

Sock Size Guide

Size	UK	EU	US (Men)	US (Women)	Foot Length
S	3 - 5	36 - 38	3.5 - 6	5 - 7	22 - 23.7 cm
M	6 - 8	39 - 42	7 - 9	8 - 10	24.6 - 26.2 cm
L	9 - 11	43 - 46	10 - 12	11 - 12	27.1 - 28.8 cm
XL	12 - 14	47 - 49	13 - 15		29.6 - 31.3 cm

Please note: The measurements correspond to your normal shoe size. If you are at the top of a size range, choosing the larger size is recommended because waterproof socks are thicker than regular socks.

FAQ

Are Sealskinz Starston socks fully waterproof? A barrier that prevents external moisture from entering the sock.

Are these socks suitable for cold weather hiking? Yes, they make the Starston ideal for cold environments and mountain activities.

Do waterproof socks still breathe? Yes, they allow moisture vapour to escape while preventing water from entering the sock.

Do these socks require re-waterproofing? No, they do not require additional waterproofing treatment.

Glossary

- **Aquasealz™:** Waterproof membrane technology that blocks external water while allowing moisture vapour to escape.
- **Merino wool:** A natural fibre known for excellent insulation, breathability and odour resistance.
- **Terry-loop knitting:** A knit structure that creates additional cushioning and insulation.

GPSR Safety Information

Use the product only for its intended purpose as protective clothing for outdoor activities. Keep away from open flames and strong heat sources.
