Description

SNIGEL Featherweight Stretcher -09

The **SNIGEL Featherweight Stretcher -09** is an **ultra-light, compact emergency stretcher** designed for military medics and first responders who need reliable evacuation capability in the field. At only **500 grams**, it's one of the lightest stretchers available – yet strong enough to carry a fully equipped soldier weighing up to **150 kg**.

Despite its minimal size, the Featherweight Stretcher provides exceptional practicality. When folded, it takes up as little space as a **magazine pouch** (10 × 10 × 5 cm), making it easy to carry in or on a medic bag at all times. It unfolds quickly for immediate use in critical rescue or evacuation scenarios, ensuring rapid casualty handling in any terrain.

Key Features

- **Ultra-lightweight design:** weighs only 500 g
- **Compact storage size:** fits inside a magazine or trauma pouch
- **Load capacity:** strong enough to carry a fully equipped soldier up to 150 kg
- **Durable construction:** can even be used as a sledge for short distances
- **6 carry handles** for flexible handling and stability
- **2 pole channels** for inserting carrying poles or branches
- Attaches easily to **medic bags or trauma pouches**

Compact and Field-Ready

The Featherweight Stretcher is designed to be **ready when seconds matter**. It's small enough to always be carried as part of a medic's loadout and unfolds into a full-size rescue platform in moments. The recommended storage option is the **SNIGEL Trauma Pouch** for optimal accessibility and protection.

Technical Specifications

Model	Featherweight Stretcher -09
Weight	500 g
Dimensions (unfolded)	190 × 60 × 1 cm
Dimensions (packed)	10 × 10 × 5 cm
Load Capacity	Up to 150 kg
Carry Handles	6 reinforced handles
Pole Channels	2 side channels for carrying poles
Storage Recommendation	SNIGEL Trauma Pouch
Made in	Sweden

Applications

- Military field medics and tactical evacuation
- Emergency response and rescue teams
- Search and rescue (SAR) operations
- Outdoor expeditions and survival scenarios

Advantages

- Exceptionally light and compact - always ready to deploy
- Durable enough for full combat load evacuation
- Compatible with standard medic and trauma kits
- Can serve as an improvised drag stretcher in emergencies

About SNIGEL (Sweden)

SNIGEL (Swedish for "snail") designs **user-centred, modular tactical gear** that's as practical and self-contained as a snail's shell. Founded by airborne ranger **PH Magnusson**, SNIGEL applies over 30 years of operational experience to develop **mission-ready equipment** for defence and law-enforcement professionals worldwide.
