S	88-92	77.5	90

XXL	113-120	87	96

How to Choose the Correct Size:

To get the correct size for the Snugpak Torrent Jacket, follow these steps:

1. Measure your chest circumference by wrapping a flexible tape measure under your armpits, across the fullest part of your chest.
2. Match your chest measurement to the size chart above to find your corresponding jacket size.
3. Check the sleeve length and neck to hem length in the table to ensure a comfortable fit. The sleeve length is measured from the shoulder seam to the wrist, and the neck to hem measurement refers to the overall length of the jacket from the base of the neck to the hem.

If your measurements fall between two sizes, we recommend choosing the larger size for a more comfortable fit, especially if you plan to wear layers underneath the jacket.
