Description

More than 'just a towel': For day ventures, expeditions and overseas travel, this soft travel towel is made with SILVADUR™ Intelligent Technologies, reducing odours and minimising build up of bacteria. The super absorbent, quick drying material makes the travel towel an essential item for all outdoor activities, reducing pack weight and size for travellers and ideal for ventures and expeditions. An ideal compliment to any pack for the removal of moisture (condensation) from the inside of tents and shelters, as well as keeping yourself clean and dry on your chosen travels and ventures.

The towel packs down small, but has an impressive size of 62 x 80cm, weighing only 120g. The towel can be folded or rolled down to minimal pack size, and used in a variety of conditions before being left to air dry naturally or wrung out to remove excess moisture. Used as a neck scarf, it can protect from the build up of sweat on a hot day, placed under a hat to protect the back of your neck from sunburn, or add a layer of warmth in colder climates, the Hands & Face Travel Towel is small and light enough to be carried as and when required.

The antibacterial properties of Anodised Silver have been known for centuries, with many items such as towels, sleeping bags and base layer underwear having Silver within microfibres. This intelligent materials
