Description

SUITED SYSTEMS Plate Carrier – Lightweight Laser-Cut Cordura (EU Made)

The SUITED SYSTEMS Plate Carrier is engineered for operators who want a sleek, lightweight platform without giving up durability or modularity. Built around **SAPI-cut hard armor plates** and made from premium **Cordura** with **laser-cut laminate** panels, it delivers professional-grade performance for training, duty, and professional deployment.

The streamlined architecture improves mobility and reduces bulk, while the modern materials and hardware support long-term use in demanding environments. Comfort-focused details like **EVA foam + 3D mesh padding** help manage heat buildup during high-output movement.

Key Features

- **Cordura & laser-cut laminate construction** for low weight and high abrasion resistance
- **Optimized SAPI-cut plate bags** for a stable fit and improved mobility
- **Duraflex V2 Tubed quick-release** on shoulders and sides for fast emergency removal and secure closure
- **Padded plate bags** (EVA foam + 3D mesh) for comfort and airflow
- **Removable shoulder pads** with cable / hydration line management channels
- **Structured laser-cut cummerbund** for stable load support with flexible movement

ORDER CONFIRMATION

- **Double-sided MOLLE** for mounting pouches on inner and outer surfaces
- **Original Velcro fields** for ID patches and admin attachments
- **Made in Europe** (design, R&D and final assembly in Riga)

Sizes & Plate Compatibility

- **Size M:** compatible with S/M hard armor plates (fits up to **241 × 318** mm)
- **Size L:** compatible with L/XL hard armor plates (fits up to **280 × 356** mm)

Weight

- **Size M carrier:** 0.83 kg
- **Size L carrier:** 0.85 kg

Materials

- **Main material:** Cordura (IRR compliant)
- **Composition:** 100% Polyamide

FAQ

Which plate sizes does this carrier fit? Hard armor plates up to 241 × 318 mm. Size L is compatible with L/XL SAPI-cut plates up to 280 × 356 mm.

Is the carrier quick-release? Yes, it features a quick-release system integrated on shoulders and sides for fast emergency removal and consistent closure.

How does it handle heat and comfort during movement? The carrier uses foam and 3D mesh to improve comfort and promote airflow, helping reduce heat buildup during high-output movement.

Can I mount pouches inside and outside? Yes, it features MOLLE, allowing pouch mounting on both the inner and outer surfaces for advanced loadout customization.

Does it support cable or hydration routing? Yes, it features low-profile routing channels to keep communication cables and hydration lines organized and snag-free.

Glossary

- **SAPI-cut:** A common hard armor plate shape standard used in many military and professional plate systems.
- **Laser-cut laminate:** A lightweight, precision-cut material system used to replace traditional stitched webbing while keeping MOLLE-compatible mounting.
- **IRR compliant:** Built with materials designed to reduce infrared reflectivity when used with appropriate systems.
- **Cummerbund:** The side wrap component of a plate carrier that supports
