Description

Suited Systems THERMO SHIELD Merino Neck Face Gaiter

All-season warmth. Mission-ready comfort. The Suited Systems "THERMO SHIELD" Merino Neck & Face Gaiter is a versatile cold-weather accessory designed to protect your neck and face in changing conditions. The universal, low-bulk design can be worn around the neck, pulled over the mouth and nose, or used as under-helmet head coverage – making it suitable for tactical use, outdoor activities, travel and everyday wear. Made from high-quality **merino wool**, the gaiter delivers an excellent warmth-to-weight ratio while remaining breathable and comfortable during movement. Merino naturally regulates temperature, helping you stay warm in cold weather without overheating. It also **wicks moisture** away from the skin and dries quickly, keeping you comfortable during active use. Merino wool is soft, non-itchy and gentle on the skin for prolonged wear. It also offers natural **odor-resistant** and **antibacterial** performance, helping the gaiter stay fresher longer between washes.

Key Features

- Multi-wear design: neck warmer, face cover, under-helmet head coverage
- Excellent warmth-to-weight ratio

ORDER CONFIRMATION

- Breathable and temperature-regulating for year-round use
- Moisture-wicking and quick-drying comfort
- Soft, elastic and comfortable on skin
- Naturally odor-resistant and antibacterial

Material

The unique natural properties of merino wool provide comfort and warmth even when damp. Thermo-regulating performance helps keep you warm in winter and cooler in summer, while naturally resisting odors.

- **Composition:** 97% Merino wool, 3% Elastane

Care

Care instructions:

FAQ

Can I wear it under a helmet? Yes it to be worn as under-helmet coverage, providing warmth and moisture management without excessive thickness.

Is merino wool itchy? No, for being soft and comfortable on skin. This gaiter is designed for prolonged wear and is typically non-itchy compared to traditional wool.

Does it work during high activity? Yes, moisture-wicking and temperature-regulating, helping you stay dry and comfortable during movement or intense use.

How often do I need to wash it? It is naturally odor-resistant and antibacterial, so it can stay fresh longer between washes. Washing frequency depends on your activity level and conditions.

Glossary

- **Merino wool:** A premium wool fiber known for softness, warmth-to-weight efficiency and natural temperature regulation.
- **Thermo-regulating:** The ability of a fabric to help balance body temperature by adapting to changing conditions.
- **Moisture-wicking:** Moving sweat away from the skin to help you stay dry and comfortable.
- **Odor-resistant:** Natural or treated capability to reduce odor buildup during wear.
