Description

Suunto AIM-6 NH Thumb Compass

The **Suunto AIM-6 NH** is an elite thumb compass built for top orienteers. Developed with the expertise of sprint orienteering world champion Mårten Boström, it combines an exceptionally stable, visually optimized needle with specialized navigation aids to maximize speed and flexibility in competitive conditions.

Main Features

- **Thumb Compass Design:** Perfect for rapid map reading and precise direction checks.
- **Exceptionally Fast & Stable Needle:** Uses dual bearing (sapphire) and neodymium magnets for accurate performance at high speed.
- **Traditional Turnable Capsule & AIM Sectors:** Quickly switch between two orienteering methods, ideal for changing terrain.
- **Visually Optimized Needle Alignment:** Aligns quickly with map meridians, supporting faster navigation decisions.
