Description

Suunto MC-2 NH Sighting Compass with Mirror

The **Suunto MC-2 NH** is a high-precision mirror compass designed for mountain adventures and professional use. Engineered with adjustable declination, a sighting mirror, and luminescent markings, this compass delivers accurate direction and slope measurements in challenging conditions.

Main Features

- **Balanced for Northern Hemisphere:** Optimized needle design for accurate readings in the northern hemisphere.
- **High-Grade Steel Needle & Jewel Bearing:** Ensures smooth rotation and quick settling.
- **Mirror for Sighting & Signaling:** A flip-up mirror with a sighting hole for pinpoint accuracy; doubles as an emergency signal mirror.
- **Clinometer:** Allows measurement of slope angles (especially useful in mountainous terrain).
- **Adjustable Declination:** Fine-tune for the difference between magnetic and true north.
- **Luminescent Markings:** Ideal for low-light or night navigation.
- **Metric UTM & Inch Scales:** Includes cm, 1:25,000 km UTM, 1:50,000 km
