Description

Taidea sharpening system equipped with two diamond stones with four abrasive surfaces of different grit. Perfect for the comprehensive sharpening of kitchen, outdoor and military knives. Thanks to sharpeners of various grains, you can perform a full cycle of sharpening or repairing a damaged cutting edge. The stone guidance system allows you to choose from three available sharpening angles: 20°, 25° and 30°. The whole, along with the guide forcing the appropriate sharpening angle, is packed in a handy case. The set includes:

- 2 stones with 4 abrasive surfaces of different gradations: 360, 600, 800, 1000
- guides,
- handle,
- stand.

Technical data

- Abrasive material: diamond
- Dimensions (packaging): 220x110x66 mm
- Weight: 517 g
- Manufacturer: Taidea Technology, PRC

Operating tips:

ATTENTION! The abrasive layer is normal with a new diamond whetstone and should disappear after the stone has run in. However, you should not apply high pressure during sharpening, because it significantly accelerates the wear of the diamond whetstone, especially those with a grit > 600. We sharpen dry, possibly with water. We do not use oil! We clean under running water using mild detergents.
