Description

Templar's SAPI Pouch Set MOLLE M-L

The Templar's Gear SAPI Utility Pouch Set is a modular, MOLLE-compatible solution designed for users who need secure plate storage with additional gear-carrying capability. Each pouch accepts **15×15 cm (Medium)** or **15×20 cm (Medium-Large)** SAPI plates and uses an internal stretch divider to stabilize and lock the plates in place. Sold as a matched pair, the set ensures balanced mounting on any MOLLE platform such as plate carriers, chest rigs, or backpacks.

Aim of the Product

This pouch set is designed to safely carry ballistic plates while offering extra space for mission-essential equipment. Its reinforced construction and internal stabilization system prevent plate shifting, making it suitable for dynamic operations and professional field use.

Audience

- Military personnel and law-enforcement officers
- Tactical users configuring plate carriers or assault packs
- Preparedness, security and response teams

ORDER CONFIRMATION

- Outdoor professionals needing secure, modular storage

Product Use

The pouches mount directly onto MOLLE platforms and provide dual-access storage: the main compartment for plates and internal gear, and a front zip pocket for tools, medical items, or communication accessories. Ideal for creating balanced loadouts or supplementing existing armor carriers.

Specifications & Technical Details

- **Plate compatibility:** 15×15 cm (M) or 15×20 cm (M-L) SAPI plates
- **Internal divider:** stretch material for secure stabilization
- **Mounting:** rear MOLLE straps; front MOLLE webbing for additional attachments
- **Front pocket:** zippered utility space
- **Set includes:** 2 pouches (left & right)
- **Weight:** 0.6 kg (set)

Additional Features

- Optimized for symmetrical load-bearing
- Clean, low-bulk profile for streamlined configurations
- Durable tactical materials suitable for professional use

Other Useful Information

The SAPI Utility Pouch Set is ideal for users who need flexible loadout options without adding unnecessary bulk. When mounted on a plate carrier, the front MOLLE rows can support accessories such as tourniquets, lights, magazines, or radio tools, enabling a fully modular setup.

Glossary of Terms

- **MOLLE:** Modular Lightweight Load-carrying Equipment - standardized attachment system for pouches and gear.
- **SAPI Plate:** Small Arms Protective Insert - ballistic plate format used in military armor.
- **IRR:** Infrared-reducing material treatment used to minimize IR signature.
- **Modular Pouch:** A pouch designed to attach and configure differently depending on the mission.
