Description

Templar's Utility Pouch MOLLE Gen 1.1 M-L

The Templar's Gear Utility Pouch Gen 1.1 M-L is a robust, MOLLE-compatible storage pouch designed to carry essential equipment, tools, medical items, or personal belongings. Built from IRR-treated Cordura 500D and reinforced laminate, it delivers excellent durability, low weight, and reliable performance in demanding field conditions.

Aim of the Product

This pouch is engineered to provide secure, organized storage for miscellaneous gear. With internal Velcro panels and an exterior MOLLE field, it allows users to expand, customize, and maintain a streamlined loadout on plate carriers, belts, or backpacks.

ORDER CONFIRMATION

- Military and law enforcement personnel
- Tactical and security professionals
- Outdoor users requiring organized storage
- Preparedness and medical kit builders

Product Use

The double-slide zipper provides quick access, while the bottom drain hole prevents water accumulation in wet environments. Ideal for storing items such as gloves, tools, batteries, multi-tools, medical components, navigational gear, or small survival essentials. The internal Velcro fields allow attaching VIS-style inserts or organizers.

Specifications & Technical Details

- **Construction:** Cordura 500D and Cordura 500D-based laminate
- **Treatment:** IRR (infrared reduction)
- **Closure:** Double-slide zipper
- **Internal features:** Two Velcro panels
- **External features:** Front MOLLE panel
- **Drain hole:** Yes, bottom mounted
- **Height:** 21 cm
- **Width:** 16.5 cm
- **Weight:** 0.121 kg
- **Trade index:** TG-UP-ML-RG

Other Useful Information

The Gen 1.1 design offers a clean balance between rigidity and low bulk, making it suitable for both minimalistic setups and full tactical configurations. The IRR-treated fabrics ensure reduced visibility under night vision devices.

Glossary of Terms

- **MOLLE:** Modular Lightweight Load-carrying Equipment - standard attachment grid for pouches.
- **Cordura 500D:** A durable, abrasion-resistant nylon fabric commonly used in tactical gear.
- **IRR Treated:** Infrared reduction treatment to lower visibility under IR light.
- **VIS Insert:** Velcro-compatible modular organizer system used for internal gear management.
