Description

Templar's TG-CPC ROC Heavy GEN4.1 (25×30)

The Templar's Gear TG-CPC ROC Heavy GEN4.1 is a reinforced plate carrier designed to carry 25×30 cm (10×12") ballistic plates with back liners in both front and rear internal pockets. Built from IRR-treated Cordura® 500D and Cordura® 500D-based laminate, it combines durability, low weight and modularity thanks to its fully laser-cut construction.

This Heavy variant includes shoulder pads with pockets for soft ballistic inserts and a reinforced ballistic cummerbund, increasing protection while remaining fully adjustable. ROC (Rapid Open Connector) buckles ensure quick donning and removal, making the carrier suitable for dynamic operations. The modular front panel system allows quick configuration changes, while the rear panel is compatible with dedicated zip-on back panels.

Aim of the Product

The TG-CPC ROC Heavy GEN4.1 is made for users who require a high-protection plate carrier with the option to integrate soft ballistic elements. It delivers a stable platform for mission-critical gear while maintaining comfort, modularity and high durability.

ORDER CONFIRMATION

- Military personnel including infantry and special operations.
- Law enforcement tactical teams.
- Security contractors and protection details.
- Shooting sports users requiring advanced protection setups.

Product Use

Hard ballistic plates (25×30 cm / 10×12") are inserted into the internal pockets; optional backer/liner panels may also be used. The ballistic cummerbund provides side protection and includes MOLLE-compatible surfaces for attaching pouches. Shoulder pads can hold optional soft ballistic inserts, improving upper-body protection without sacrificing comfort. The ROC buckles enable rapid release and secure closure, while the laser-cut MOLLE system supports all PALS-compatible pouches and accessories. This model accepts zip-on back panels and rear-mounted packs via its integrated zipper system.

Package Contents

- Front and rear plate bags (laser-cut MOLLE, IRR treated)
- Ballistic cummerbund (with MOLLE and ROC buckles)
- Shoulder pads with pockets for soft ballistic inserts

Compatibility

- Hard ballistic plates 25×30 cm (10×12") ±0.5 cm
- Soft ballistic inserts for shoulder pads (optional)
- Inner soft backers/liners (optional)
- MOLLE/PALS pouches and accessories
- Zip-on back panels compatible with Templar's Gear rear zipper layout

Specifications & Technical Details

- **Model:** TG-CPC ROC Heavy GEN4.1
- **Plate size:** 25×30 cm / 10×12" SAPI-type
- **Construction:** Laser-cut MOLLE, modular front panel, rear zip-on interface
- **Cummerbund:** Ballistic, reinforced, ROC buckle system
- **Shoulder pads:** Pockets for soft ballistic inserts
- **Material:** Cordura® 500D & Cordura® 500D laminate (IRR treated)
- **Lining:** Breathable interior mesh (comfort padding)
- **Weight:** approx. 0.95 kg
- **Colors:** Standard range; other colors on request
- **Origin:** Made in Poland from EU/US materials

Size Guide - Cummerbund Circumference

Note: Circumference values do not account for radios, side plates, MOLLE wings or other side-mounted equipment. Fit may vary; contact seller for

ORDER CONFIRMATION

cummerbund exchange if needed. Ensure full hook Velcro engagement for proper adjustment.

Size	Estimated Circumference
Small	85-95 cm
Medium	90-120 cm
Large	105-125 cm
Extra Large	115-135 cm

Care & Maintenance

- Remove plates and ballistic panels before cleaning.
- Hand wash with mild soap and lukewarm water only.
- Do not bleach, machine-wash or tumble-dry.
- Air-dry completely away from heat sources.
- Inspect MOLLE slots, stitching and ROC buckles regularly.

Other Useful Information

The Heavy variant of the CPC ROC GEN4.1 is intended for users who require additional ballistic protection. Its laser-cut laminate reduces unnecessary weight while maintaining rigidity and camouflage integrity. The ballistic cummerbund and modular shoulder padding system ensure a comprehensive protection area without compromising mobility.

Glossary of Terms

- **MOLLE:** Modular Lightweight Load-Carrying Equipment for attaching pouches and accessories.
- **ROC Buckle:** Rapid Open Connector buckle enabling quick release and reattachment.
- **Ballistic Cummerbund:** Side-protection cummerbund designed to hold soft or hard ballistic inserts.
- **IRR Treatment:** Infrared Reflectance reduction for lower visibility under night-vision devices.
- **Plate Backer/Liner:** Thin soft ballistic or impact-reducing panel placed behind a hard plate.
