Designed specifically for cyclists, a 30 litre pack with plenty of easy to access organised storage and useful LED light pocket.

1-4 Weeks

Description

The Laser Velo 30 is a 30 litre lightweight rucksack designed specifically for cyclists and bike packers but is equally good for multi-day adventure races.

- The pack has two top-opening main compartments plus a huge easy access (and wipe clean) pocket.
- For those with hydration systems, the rucksack has a pocket in the larger compartment to hold the bladder in place and outlets for the tube at the top.
- There are a multitude of pockets providing plenty of external storage capacity on each side of the rucksack - a large elasticated mesh pocket, a bottle pocket and a zip hip pocket - which is useful for valuables and snacks.
- Compression cords can be used to hold contents in place if the rucksack isn't full or a handy attachment point for clothing.
- What sets the Laser Velo 30 apart from the standard Laser rucksacks

is the HDPE frame support in the back which adds structure and holds the rucksack off the wearers back providing better airflow.

- There's a neat clear pocket which can be used to house an LED rear light, keeping it safe and helping to prevent it working loose when you're on the move.
- An adjustable chest strap and hip belt helps to keep the pack in place when cycling.
