Description

Tasmanian Tiger Base Pack 75 IRR Backpack Long Range 75 - 90 l

Large mission backpack with modular expansion options. The TT Base Pack 75 IRR offers a volume of 75 liters, expandable to 90 liters. The IRR camouflage meets the high German Bundeswehr standards TL 8305-0278 / TL 8305-0281 (IRR 650 - 1250nm / 10 - 42%).

The volume of the TT Base Pack 75 IRR can be expanded up to 90 liters by removing the lid and using the roll-top snow guard. The shaped head recess ensures freedom of movement even when heavily loaded. The backpack features MOLLE on all key attachment surfaces. Made of CORDURA® and material with IRR treatment, the backpack meets the high German Bundeswehr standards for IRR camouflage.

Infrared (IRR) Protection:

This backpack is specially treated to offer infrared reflective (IRR) protection, making it suitable for military use and night operations. Infrared camouflage prevents detection by night vision devices and infrared scanners, ensuring that soldiers remain undetected in low-light or nighttime environments. The IRR-treated materials comply with strict German Bundeswehr standards, specifically TL 8305-0278 / TL 8305-0281, covering wavelengths of 650 - 1250nm and reflection values between 10 - 42%. The IRR treatment involves both the CORDURA® fabric and all associated materials such as the webbing, hook-and-loop fasteners, and buckles. This comprehensive protection reduces the visibility of the backpack to infrared detection devices, helping soldiers remain concealed during military

missions where infrared detection poses a significant risk.

Features:

- V2 Carrying System
- Preformed head cavity
- Divided main and bottom compartments
- Fixation for hiking poles or ice axes
- Roll-top snow guard (without lid) can be used in two locking positions
- Volume expandable from 75 l to 90 l through roll-top snow guard
- Height-adjustable chest belt
- Special hip belt design for single-handed adjustment
- Side compression straps
- Compression around perimeter of base
- Lid with gear loops
- Easy-access pocket on top of lid
- Height-adjustable, detachable lid
- Hydration system compatible
- First aid compartment in lid
- IRR properties (Material according to TL 8305-0278)
- Antenna ports into the main compartment
- Front and sides with MOLLE system: Sides (6/3 MOLLE loops width, 8/1 length)
- Lid with MOLLE system: Width (7 MOLLE loops), Length (4 MOLLE loops)

Specifications:

- **Measurements:** 77 x 33 x 26 cm
- **Volume:** 75 - 90 liters
- **Weight:** 3.12 kg
- **Carrying system:** V2-System (TT)
- **Fabric 1:** CORDURA® 700 den IRR
- **Fabric 2:** T-Square Rip FD
- **Composition:** 100% Polyamide

Materials:

- **CORDURA® 700 den IRR:** Combines high wear and tear resistance of 1000 den fabric with the lightness of 500 den fabric. It meets German Bundeswehr standards for long-term stability, high abrasion, and tear resistance. The IRR treatment provides superior protection from detection by night vision and infrared scanning devices.
- **T-Square Rip FD:** A very tight weave of 210 den fibers ensures this fabric is extremely stable and lightweight. Using FD yarn gives the fabric a matte surface for enhanced concealment.
