Outstanding medium to long
range Patrol Pack

Description

Warrior X300 Medium-/Long-Range Patrol Pack

The **Warrior X300** is a 80 L patrol rucksack developed with direct input from special-forces units seeking a *light-weight yet brutally strong* bergen* for multi-day missions. A slim profile lets operators move freely through tight urban doorways or dense vegetation, while twin access points-helmet-friendly top lid and centre clamshell-provide fast, organised entry to gear. Three **man-down drag handles**, removable padded hip-belt and a height-adjustable harness make the X300 equally suited to combat extraction or steep-slope load carriage.

- Total capacity : **80 L** (main bag + 5 external pouches)
- Top- and mid-level openings for compartmentalised packing
- 3 man-down handles (top, left, right) for two-man casualty drag
- Narrow 33 cm width for unrestricted movement in confined spaces
- Removable padded hip-belt with 150 cm max circumference
- Internal aluminium frame supports heavy loads
- Side MOLLE* pouches with internal organisers; base wet-kit pocket with removable liner
- Dual fabrics:
 - **Green variant** - 1000 D IR-treated Cordura®
 - **MultiCam® variant** - 500 D genuine Crye Multicam Cordura
- US Mil-Spec webbing, IR-compliant buckles and thread (~ 1000 lb tensile)

ORDER CONFIRMATION

- Full compression-strap set and reinforced bar-tack stitching

To supply military and tactical users with a single pack capable of *extended patrols* or *rapid day missions*, blending high-volume carriage, quick-access compartments and extraction safety features. Infantry patrols, special-operations forces, recce elements, search-and-rescue teams and expeditionary hunters who require a rugged, IR-compliant ruck optimised for both field manoeuvre and urban entry.

- Warrior X300 backpack with internal aluminium frame
- Integrated removable hip-belt
- Load mission-critical gear via top lid; stow frequently needed items in front/bottom pouches.
- Unzip centre clamshell for mid-pack access without stripping upper layers.
- Attach additional pouches via side MOLLE rows or lash breaching tools under compression straps.
- Use base wet-kit pocket (with liner) for soiled clothing or tarp storage.
- In casualty scenarios, employ any of the three drag handles for two-person extraction.

Total capacity	≈ 80 L (including external pouches)
Main compartment	64 × 33 × 24 cm (25" × 13" × 9.5")
Lid pouch	10 × 33 × 24 cm (4" × 13" × 9.5")
Front main pouch	34 × 28 × 6 cm (13.5" × 11" × 2.25")
Front bottom pouch	9 × 30 × 7 cm (3.5" × 12" × 2.75")
Side pouches (×2)	64 × 23 × 5 cm (25" × 9" × 2")
Hip-belt range	up to 150 cm (59")
Frame	Internal aluminium stay
Drag handles	Top centre • left side • right side
Fabric options	1000 D IRR Cordura® (Green) 500 D Crye™ Multicam
Infra-red spec	< 0.2 reflectivity (99.8 % IR reduction)

Glossary

- **Bergen:** British term for large military rucksack.
- **MOLLE (Modular Lightweight Load-carrying Equipment):** Webbing grid that accepts PALS-compatible pouches.
- **IRR / IR-compliant:** Infra-red reduction fabric/buckle treatment minimises detection under night-vision devices.
- **Crye Multicam®:** Patented multi-environment camouflage print used by NATO forces.
- **Man-down handle:** Heavy drag loop enabling two operators to rapidly extract a casualty wearing the pack.
