Description

This drinking bottle combines different sealing and drinking techniques in one! By unscrewing the complete lid, you have a wide neck (Ø 53 mm) with all the known advantages. Furthermore, there is a small screw top with loop top (Ø 1.7 cm), which offers a good drinking size. It will be perfect with the fold-out suction nozzle. Here you drink with the built-in drinking straw from the bottle without lifting it. Ideal for cyclists, in the car or during sports. The drinking spout can be locked to accidentally open z. B. during transport. As usual with Nalgene, with level indicator z. B. for safe mixing of mineral drinks.

- Sustain Tritan
- BPA free
- Multidrink cap
- Weight 144 g
- Neck Ø 5,3 cm, Ø 7,6 x H 22 cm
- Tritan (TM) copolyester, polypropylene lid
- 0,6 l

MAde and assembled in U.S.
